

WEDNESDAY, APRIL 26, 2023 - SCHEDULE

<i>Morning Plenary Sessions</i>		
TIME	TOPIC/PRESENTATION	SPEAKER(S)
09:50 - 10:00	Welcome	
10:00 - 10:30	Chasing Excellence By the end of the session, participants will be able to: 1. <b>Discuss why “aiming for excellence” in what we do is important</b> 2. Describe 3 ways to achieve excellence in their practice 3. Discuss how excellence is linked to fulfillment	<i>David Carr</i>
10:30 - 10:45	Do Nothing? How to be comfortable sending an infant with vomiting home By the end of the session, participants will be able to: 1. Outline the assessment and potential workup (or not) of a vomiting infant 2. List the key diagnoses to consider in the vomiting infant	<i>Sarah Reid</i>
10:45 - 11:00	Why Should You Care about HIV in your ED? By the end of the session, participants will be able to: 1. Discuss why Emergency Physicians Should You Care about HIV in your ED 2. Discuss 3 strategies your ED can do to improve the detection of HIV 3. <b>Discuss how ED’s can support patients with HIV</b>	<i>Megan Landes</i>
11:00 - 11:20	5 Clinical Pearls from the first 5 Years of Practice By the end of the session, participants will be able to: 1. Describe an important pearl on history that all Emergency Physicians should consider 2. Discuss 3 challenges facing early career Emergency Physicians	<i>Sarah Foohey</i>
11:20 - 11:30	<i>(move to concurrent sessions)</i>	
11:30 - 12:30	<i>Concurrent Morning Seminars (11:30-12:30, repeated 14:30-15:30) Attendees will two of the seven sessions</i>	
SESSION	TOPIC/PRESENTATION	SPEAKER(S)
S01	ECG Cases By the end of the session, participants will be able to: 1. Distinguish amongst the various types of ventricular tachycardia. 2. List some ECG findings associated with sudden death in patients with syncope. 3. Identify subtle ECG findings that indicate early cardiac ischemia.	<i>Amal Mattu</i>
S02	Plastics Hands on Seminar By the end of the session, participants will be able to: 1. Discuss the procedures an Emergency Physician can do and which ones should be referred to the Plastic Surgeon 2. Demonstrate 3 important hand procedures that ED Physician can do	<i>Matt DiStefano</i>

S03	<p>Advanced Ultrasound</p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Demonstrate how to generate and interpret a POCUS scan for DVT</li> <li>2. Demonstrate how to generate and interpret a POCUS scan for retinal detachment</li> <li>3. Demonstrate how to use POCUS for shoulder dislocation management and rule out shoulder effusion</li> </ol>	<i>Steve Socransky</i>
S04	<p>Pneumothorax Seminar</p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Describe an approach to the ED management of pneumothorax.</li> <li>2. Demonstrate how to insert a percutaneous thoracostomy (pigtail) catheter through hands-on practice and learned tips and tricks.</li> <li>3. Discuss the management of pneumothorax</li> <li>4. Discuss the role of thoracic surgery follow up for patients with pneumothorax.</li> </ol>	<i>NegarAhmadi Gil Yehudaiff</i>
S05	<p>Toxicology Workshop</p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Discuss management of cocaine -induced dysrhythmias</li> <li>2. Discuss valproic acid toxicity and current management strategies.</li> <li>3. Discuss <b>use of "LAST"</b> in the ED</li> </ol>	<i>Emily Austin</i>
S06	<p>Burn Management Seminar</p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Discuss the initial approach to the burn patient</li> <li>2. Describe 3 pitfalls in burn management</li> <li>3. Discuss indications for transfer to a Burn Centre</li> </ol>	<i>Joel Fish Robyn Shafer</i>
S07	<p>Cellulitis: Not as Advertised</p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Discuss uncommon presentations for cellulitis</li> <li>2. Discuss the management of cellulitis</li> <li>3. Describe 3 pitfalls in the management of cellulitis</li> </ol>	<i>Sean Caine</i>
S08	<p>Uncommon Complications of Common Drug Overdoses</p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Discuss which illicit drugs are commonly used in Canada, and their expected patterns of intoxication and overdose</li> <li>2. Discuss uncommon life or limb threatening complications of illicit drug use</li> <li>3. Discuss urgent medical and surgical management of rare drug overdose complications.</li> </ol>	<i>Hania Bielawska</i>
12:20 - 13:20	<i>Lunch Break</i>	
13:30 - 14:30	<i>Concurrent Afternoon Seminars (11:30-12:15, repeated 13:30 - 14:30) Attendees will two of the nine sessions</i>	
<i>Afternoon Plenary Sessions</i>		
14:30 - 15:00	<i>Afternoon Break &amp; Exhibit Viewing</i>	

SESSION	TOPIC/PRESENTATION	SPEAKER(S)
15:00 - 15:30	Trauma Panel By the end of the session, participants will be able to: <ol style="list-style-type: none"> <li>1. Discuss the initial recognition and management of 3 trauma case scenarios</li> <li>2. Discuss the limitations in trauma care in rural locations and populations compared with the usual academic urban facilities and resources</li> </ol>	<i>Bourke Tillman Jonathan Wallace Natalie Wolpert (moderator)</i>
15:30 - 15:45	ENT Update By the end of the session, participants will be able to: <ol style="list-style-type: none"> <li>1. Discuss management of 3 common ENT emergencies</li> <li>2. Describe 3 pitfalls in the management of these ENT emergencies</li> </ol>	<i>Megan Osborn</i>
15:45 - 16:00	Diplopia in the ED By the end of the session, participants will be able to: <ol style="list-style-type: none"> <li>1. Discuss the approach to the patient presenting with diplopia to the ED</li> <li>2. Discuss which patient presenting with diplopia need urgent referral</li> </ol>	<i>Edward Margolin</i>
16:00 - 16:15	Cardiology Literature Update By the end of the session, participants will be able to: <ol style="list-style-type: none"> <li>1. Identify Sgarbossa findings on ECG that predict acute coronary occlusion.</li> <li>2. Describe hyperacute T-waves predictive of cardiac ischemia.</li> </ol>	<i>Amal Mattu</i>
16:15 - 16:35	<b>Massive Hemorrhage Protocol 2023: It's Not Just RBC's Platelets and Plasma</b> By the end of the session, participants will be able to: <ol style="list-style-type: none"> <li>1. Discuss the approach to the patient with massive bleeding</li> <li>2. Discuss key strategies to implement a Massive Hemorrhage Protocol</li> </ol>	<i>Walter Himmel</i>
16:35 - 16:50	Ortho Practice Changing Pearls By the end of the session, participants will be able to: <ol style="list-style-type: none"> <li>1. Discuss the management of 3 important orthopedic presentations to the ED</li> <li>2. Discuss 3 pitfalls in the management of these cases</li> </ol>	<i>Arun Sayal</i>
16:50 - 17:00	Closing Remarks	

THURSDAY, APRIL 27, 2023 - SCHEDULE

08:00 - 09:30 TO Women in EM Symposium “ the Art of Negotiation” ~ Sara Gray

1. Hoping to get a job or promotion? We will discuss tips and tricks for better negotiation in the ED
2. We will review real cases and strategies for self-advocacy
3. Hear from the experts: how to get past “NO”

TIME	TOPIC/PRESENTATION	SPEAKER(S)
10:00 - 10:10	Welcome	
10:10 - 10:30	Chasing Excellence By the end of the session, participants will be able to: 1. Describe methods for achieving excellence in professional pursuits. 2. List reasons for pursuing excellence in professional pursuits.	<i>Amal Mattu</i>
10:30 - 10:45	Understanding Meth By the end of the session, participants will be able to: 1. Discuss the initial approach to the patient <b>presenting intoxicated with “meth”</b> 2. Discuss strategies for the management of this patient upon discharge from the ED	<i>Michelle Klaiman</i>
10:45 - 11:05	Cardiogenic Shock By the end of the session, participants will be able to: 1. Discuss the role of vasoactive medications in cardiogenic shock: how to choose! 2. Discuss oxygenation strategies and when to intubate 3. Describe the causes of cardiogenic shock, and how to tailor your approach effectively	<i>Sara Gray</i>
11:05 - 11:20	Get off the fence part 1: IV versus oral antibiotics By the end of the session, participants will be able to: 1. Discuss the evidence comparing IV and oral antibiotics 2. Describe strategies to reduce overall use of intravenous antibiotics in the emergency department 3. Discuss some exceptions to the general rule that IV antibiotics are no better than oral	<i>Justin Morgenstern</i>
11:20 - 11:40	Bringing Business to Bedside By the end of the session, participants will be able to: 1. Discuss the role that you as a clinician play in leading healthcare change at your organization. 2. Differentiate between what we can, and cannot, change within a healthcare system. 3. Discuss a structured approach to change implementation.	<i>Anthony Crocco</i>

11:40 - 12:00	<p>Pediatric Expert Panel</p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Discuss the practice variation in 3 common Pediatric Emergency Medicine cases</li> <li>2. Discuss current evidence to manage these pediatric cases in the grey zone</li> </ol>	<p><i>Anthony Crocco</i> <i>Sarah Reid</i></p>
12:00 - 13:00	Lunch Break	
13:00 - 13:15	<p><b>Peripartum SOB: Not all are PE's</b></p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Discuss the diagnostic approach to pregnant and postpartum shortness of breath</li> <li>2. Describe diagnosis and management of peripartum cardiomyopathy</li> <li>3. Discuss the recent evidence for diagnosis and treatment of hypertension in pregnancy</li> </ol>	<p><i>Catherine Varner</i></p>
13:15 - 13:35	<p>Neurocritical Care Priorities</p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. <b>Discuss the approach to the "Neurocritical" patient in the ED</b></li> <li>2. Describe 3 pitfalls in managing these patients</li> </ol>	<p><i>Katie Lin</i></p>
13:35 - 13:55	<p>Reversing Bleeding: Everything You Need to Know about Reversing Drugs that Make You Bleed</p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Discuss the initial approach to reversing bleeding for patients on drugs that make you bleed</li> <li>2. Discuss 3 newer treatment strategies</li> </ol>	<p><i>Walter Himmel</i></p>
13:55 - 14:15	<p>Visual Diagnosis in EM</p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Discuss common and uncommon EM diagnoses that can be amenable to visual recognition</li> <li>2. Discuss salient diagnostic and therapeutic issues surrounding these diagnoses</li> </ol>	<p><i>Amit Shah</i></p>
14:15 - 14:35	<p>ID in the ED: Practical Clinical Pearls</p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Discuss a rational approach to COVID in the ED</li> <li>2. Discuss the treatment of UTI</li> <li>3. Discuss the treatment of cellulitis</li> </ol>	<p><i>Isaac Bogoch</i></p>
14:35 - 15:05	<i>Afternoon Break &amp; Exhibit Viewing</i>	
15:05 - 15:25	<p>Respiratory Failure</p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Discuss the initial approach to the patient with respiratory failure</li> <li>2. Discuss alternatives to intubation/ventilation</li> </ol>	<p><i>Bourke Tillmann</i></p>
15:25 - 15:45	<p>Red Eye in the ED</p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Discuss the approach to the management of the red eye in the ED</li> <li>2. Describe 3 pitfalls in the management of these patients</li> </ol>	<p><i>Megan Osborn</i></p>

15:45 - 16:05	Errors in Emergency Medicine: Lessons from Clinical Quality Review By the end of the session, participants will be able to: <ol style="list-style-type: none"><li>1. Discuss patterns of error that lead to suboptimal care.</li><li>2. Describe strategies to make errors commonly committed by emergency clinicians less likely.</li></ol>	<i>Reuben Strayer</i>
16:05 - 16:45	Airway Management Panel By the end of the session, participants will be able to: <ol style="list-style-type: none"><li>1. Discuss the initial approach to airway emergencies</li><li>2. <b>Discuss strategies to approach the “can’t intubate” scenario</b></li><li>3. Describe pitfalls in airway management in the ED</li></ol>	<i>Jesse Guscott and Jonathan Wallace</i>
16:45	Wrap Up / Closing Remarks	

FRIDAY, APRIL 28, 2023 - SCHEDULE

*Morning Plenary Sessions*

TIME	TOPIC/PRESENTATION	SPEAKER(S)
09:50 - 10:00	Welcome	
10:00 - 10:20	Chasing Excellence By the end of the session, participants will be able to: 1. Describe methods for achieving excellence in professional pursuits. 2. List reasons for pursuing excellence in professional pursuits.	<i>Sarah Foohey</i>
10:20 -10:30	Get off the fence part 2: Antibiotics for diverticulitis By the end of the session, participants will be able to: 1. Discuss recent evidence suggesting that uncomplicated diverticulitis should not be treated with antibiotics 2. Describe an approach to the management of suspected diverticulitis	<i>Justin Morgenstern</i>
10:30 - 10:45	Peer to Peer Support Program Cases By the end of the session, participants will be able to: 1. Discuss virtual Peer to Peer support model and objectives 2. Discuss the approach to virtual coaching and support	<i>Kylie Booth</i>
10:45 - 11:00	Ortho Practice Changing Pearls By the end of the session, participants will be able to: 1. Discuss the management of 3 important orthopedic presentations to the ED 2. Discuss 3 pitfalls in the management of these cases	<i>Arun Sayal</i>
11:00 - 11:20	Critical Care Panel By the end of the session, participants will be able to: 1. Discuss tips for acute resuscitation of undifferentiated shock 2. Describe the approach to hemorrhagic shock in a non-compressible site 3. Discuss approaches to the refractory shock trauma patient	<i>Sara Gray and Bourke Tillmann</i>
11:20 - 11:300	<i>(move to concurrent sessions)</i>	
11:30 - 12:30	<i>Concurrent Morning Seminars (11:30 - 12:30, repeated 13:30 - 14:30) Attendees will two of the seven sessions</i>	
SESSION	TOPIC/PRESENTATION	SPEAKER(S)
S08	<b>'Hot Water and how to avoid it'</b> Medicolegal cases By the end of the session, participants will be able to: 1. Discuss strategies to prevent medicolegal misadventures 2. Discuss common issues that arise in emergency medical litigation	<i>Amit Shah</i>

S09	<p>Advanced Ultrasound</p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Discuss the indications and findings of advanced cardiac POCUS that are helpful for emergency physicians care of their patients</li> <li>2. Demonstrate the parasternal long, short axis, and apical four chamber views of the heart on healthy volunteers</li> </ol>	<p>Rob Simard Adrian Wu</p>
S10	<p>Airway Seminar</p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Discuss and demonstrate effective bag valve mask ventilation</li> <li>2. Discuss and demonstrate optimal first attempt laryngoscopy and video laryngoscopy</li> <li>3. Discuss and demonstrate surgical airway using bougie cricothyrotomy technique</li> </ol>	<p>Jamie Blicher Sean Caine Mike Killian</p>
S11	<p>Emergency Management of Chronic Pain</p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Describe the role of opioids in the development and natural history of chronic pain.</li> <li>2. Discuss the varying goals of management of patients with chronic pain who present to the ED in pain, based on an assessment of opioid benefit and harm.</li> </ol>	<p>Reuben Strayer</p>
S12	<p>Cutting Edge Update: CHF Management</p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Discuss evidence-based approach for SCAPE;</li> <li>2. List the most important elements on heart failure evaluation;</li> <li>3. Discuss the most recent literature on HF treatment.</li> </ol>	<p>David Pare</p>
S13	<p>ENT Workshop</p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Demonstrate use of video and optical flexible Nasopharyngoscopy as an ED tool</li> <li>2. Discuss the ED treatment of deep neck space infection</li> <li>3. Describe a clinical pathway for emergent airway management</li> </ol>	<p>Leeor Sommer Hyoung Lho</p>
S14	<p>Urology Seminar</p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Discuss the approach to 3 urologic emergencies</li> <li>2. Describe pitfalls in the management of these cases</li> </ol>	<p>Natalie Wolpert</p>
12:30 - 13:30	<i>Lunch Break</i>	
13:30 - 14:30	<i>Concurrent Afternoon Seminars (11:30 - 12:30, repeated 13:30 - 14:30)</i> Attendees will one of the two of seven sessions	
14:30 - 14:45	Networking Coffee Break	
<i>Afternoon Plenary Sessions</i>		
14:45 - 15:05	<p>Where is the Love? IPV in the ED</p> <p>By the end of the session, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Discuss intimate partner violence (IPV) statistics globally, in Canada, and in Ontario</li> <li>2. Describe the economic impact of intimate partner violence cases in Canada</li> <li>3. Discuss the CAEP Position Statement on IPV</li> </ol>	<p>Nour Khatic</p>

15:05 - 15:25	Amazing & Awesome Cases By the end of the session, participants will be able to: <ol style="list-style-type: none"><li>1. Discuss the benefits of doing Awesome and Amazing rounds on a regular basis in your own ED</li><li>2. Discuss how to teach around a case that went well in the Emergency Department and break it down to understand why it went well.</li></ol>	<i>Yashi Yathindra</i>
15:25 - 15:45	Amazing & Awesome Cases By the end of the session, participants will be able to: <ol style="list-style-type: none"><li>1. Discuss an Amazing &amp; Awesome Case</li><li>2. Describe 1 pearl from the case</li></ol>	<i>Mike Misch</i>
15:45 - 16:05	Amazing & Awesome Cases By the end of the session, participants will be able to: <ol style="list-style-type: none"><li>1. Discuss a case(s) seen in the ED and highlight points that went well</li><li>2. Discuss the relevant approach to case(s) presented</li></ol>	<i>Robyn Shafer</i>
16:05 - 16:35	Chasing Excellence - The Last Word By the end of the session, participants will be able to: <ol style="list-style-type: none"><li>1. Describe methods for achieving excellence in professional pursuits.</li><li>2. List reasons for pursuing excellence in professional pursuits.</li></ol>	<i>Joan Cheng</i>
16:35 - 16:45	Wrap Up / Closing Remarks
